

Cookie Policy

Effective Date: 1 January 2020

THIS COOKIE POLICY APPLIES TO OUR WEBSITES AND PLATFORMS

Cookies

This Policy describes how Fintech Invest and its affiliates (“we”, or “us”) uses cookies on our websites and platforms (each a “Site”). To make our Site(s) work properly, we sometimes place small data files (called cookies) on your device.

What are cookies?

A cookie is a small text file that a website saves on your computer or mobile device when you visit a website. It enables the website to remember your actions and preferences (such as login, language, font size, and other display preferences) over a period of time, so you don’t have to keep re-entering them whenever you come back to the website or browse from one page to another.

What types of cookies do we use?

We use two types of cookies on the Site(s): session cookies and persistent cookies. A session cookie is a temporary cookie that remains on your device until you leave the Site(s). Session cookies are essential to make our Site(s) work correctly, as they enable you to move around our Site(s) and use our features. A persistent cookie remains on your device for much longer, or until you manually delete it (how long the cookie remains on your device will depend on the duration or “lifetime” of the specific cookie and your browser settings). Persistent cookies help us recognize you as a returning user of our Site(s) so it’s easier and convenient to return to and interact with our Site(s). In addition, persistent cookies also help us recognize and record information about your web browsing habits during the lifetime of the persistent cookie.

What are cookies used for?

We use cookies on our Site(s) to personalize your experience on the Site(s) and to make your future activities and experience on our Site(s) more efficient. We also use cookies to track, compile and analyze usage, navigational and other statistical information that allows us to understand how people use our Site(s), and to help us improve the structure and content of the Site(s). The cookie-related information is not used to identify you personally.

What third-party cookies do we use?

We may also work with third-party service providers who may set cookies on our Site(s). These third-party service providers help us track and analyze your use of our Site(s) and to optimize our Site(s) and improve your experience. These third-party service providers are responsible for the cookies they set on our Site(s). If you want further information please go to the website for the relevant third-party service provider.

How to control cookies?

You can delete all cookies that are already on your computer and you can set most browsers to prevent them from being placed. If you do this, however, you may have to manually adjust some preferences every time you visit our Site(s) and functionalities may not work
